Review

3. Identify something you've learned from the Session 4, and provide your thoughts on the proposals made in Fox (2000). You may provide language examples to support your argument. *

Reading

Please check the <https://www.nyi.spb.ru/class/> for the reading material

4. Please read some chapter/paragraphs of Fox (2000, chapter 1 and 2, about scope economy), and/or Wurmbrand (2018, about cost of quantifier raising), and/or Shafiei (2019, Persian Quantifiers), and/or Maeda (2019, Japanese ellipsis and scope), and/or Kotek and Barros (2018, scope and superiority), and/or Syrett (2015, experimental study of scope in ACD), then identify something you learned from the paper(s) and/or your thoughts on the paper(s). *

Recommending

5. If you have any suggested reading materials related to scope issues that you'd like to discuss with the class participants, please leave the reference info here. Ideally, send me a e-copy of the paper(s) if you have one. (email: mail@wuhongchen.com). Thank you.

6. Please kindly leave your feedback/suggestions/questions about the class/ scope issues in general here. Thank you!
